

City of Roseville
Roseville Regulation, Control and Elimination of
Noxious Weeds and Other Growths
CITY OF ROSEVILLE CODE CHAPTER 364

On or before April 1st of each year, the City Clerk shall cause to be published in a newspaper of general circulation within the city a notice to all owners and occupants of land that all noxious weeds on any property located within the city must be destroyed on or before the 15th day of April and for the remainder of any such year; that at all times all grass and non-noxious weeds higher than six (6) inches in height must be cut; that the uncontrolled growth of all shrubs, hedges, bushes, plants and trees must be trimmed, sheared or cut; that at all times vacant property shall be kept free of dense, wild growth of trees, shrubs, bushes, plants and debris; and that at all times trees on vacant property shall be kept trimmed, where reasonable, to maintain a clearance of at least eight (8) feet from the ground to the lowest limbs thereof.

Such notice shall further provide that upon failure to comply with any of the aforesaid provisions the Department of Public Works or a designated contractor may enter upon such premises as many times as is necessary and destroy any and all noxious weeds, cut any grass or non-noxious weeds higher than six (6) inches in height, trim the uncontrolled growth of any shrub, hedge, bush, plant or tree and remove such waste along with any other accumulated debris on such property.

Such notice shall further provide that any costs incurred by said Department of Public Works or a designated contractor shall be a lien upon the premises and shall be assessed against the premises and, if not paid within forty-five (45) days of billing, shall be added on the next tax statement for said premises; provided, however, that such notice gives the owners or occupants of premises situated within the city thirty (30) days from such publication to comply with the provisions of this chapter.

Respectfully submitted,
Richard M. Steenland
Roseville City Clerk
